Web Developer

Hello!

I am a design-minded and community-focused Web Developer with a flare for colour and composition. I'm always focused on the customer experience and commerciality in my contributions to an excellent product. I confidently prioritize tasks in dynamic projects and environments.

- Confidence in project presentation and public speaking.
- Obsessed with providing clean and clear wireframing, user stories, and, project planning steps.
- Quick prioritization of tasks, along with excellent time management skills ensures deadlines are met.
- Quantitative and qualitative research.
- I integrate easily into new teams and bring an open perspective
